

SESSION BREAK

at Providence Christian School NW

November 21, 2022

Christmas Chemistry with Ms. Spring

Monday, November 21 from 10:00-11:30 a.m. (MS Room)

This is a 1.5 hour class for 5th-10th grade students. Students will get a fun introduction to chemistry by seeing how different chemicals react with one another to create a silver plated ornament!

This is a pilot for extra offerings that will happen during our session break on our new calendar. The cost is \$20 (cash) per student per offering which is usually 1.5 hours. There is a minimum sign-up of 8 students and a maximum of 15 – offered first to students of Providence Christian School NW and then to the homeschooling community.

Tutoring with Mrs. Odens

Monday, November 21 from 10:00-11:30 a.m.

This 1.5 hour class is extra help for elementary students who are struggling—or just want more practice—in reading, writing, or math.

When signing up, please make note of what subject your child would like help with so I can best prepare to help them. Thank you.

with Mr. V.

Monday, November 21 1:30-3:00 p.m.

This 1.5 hour class is for 2nd-5th Grade and will be an opportunity for students to explore a fun Science/Technology/Engineering/Art/Math (STEAM) project: Polar Bear Play
